

FAULT!

THE HOOK

Quick drill to banish the banana shot!

**FAULT
FIXER
CARDS**

FIX!

★ Place two sponges on the ground, one a few feet behind the ball below the target line and the other a few feet ahead of the ball and above the target line.

★ Practise swinging through the middle of the sponges and striking the ball away. This will retrain you to attack the ball on a neutral, rather than in-to-out, swing path.

*Miss the sponges
to strike shots
straight.*
